

The solution for scale problems in the poultry sector

The **Scalewatcher™** is easily fitted and requires no plumbing, chemicals or maintenance.

Scalewatcher™ will:

- Maintain nipple drinkers and spray nozzles clear of any blockages.
- Keep drinking cones and cooling panels clean and scale free.
- Enhance the performance of medicators and enable them to work at designed levels of accuracy.
- Remove scale and sludge from waterlines.
- Improve the performance of water heaters and boilers and of water cooled refrigeration equipment in poultry.
- Keep incubators clean and enable their humidification systems to operate perfectly.
- Clear scale stains from stainless steel and other surfaces.
- Improve the efficacy of disinfectants.
- Provide a return on investment within one year.
- Have a lifespan of over 20 years.

Advantages of the **Scalewatcher™** Poultrikare™:

- Non-invasive.
- Uses no chemicals.
- Requires no maintenance.
- No change in water quality.
- Consumes very little electricity.
- Shorter cleaning time.
- Capital equipment last longer.
